When it comes to colours, Less is More!

The fewer colours chosen will cut down on handling time, which will reduce costs. We suggest limiting the amount of colours to three - five for suiting and choose two neutral inner colours that will work with all suiting.

RUBY BLISS

Less detail = More Savings

Always remember that the less detail included on the style is the more you will save. Jackets that include details such as; piping, topstitching and contrast will up your cost. Choose a style with darts rather than one with a lot of panelled seam detailing as this will be more economical.

Dress for Success!!!!

By adding a dress option to your uniform allotment you can very easily lower your cost. Choosing 4 suits and 1 dress per employee will allow you to save the cost of the 5th pants, skirt and in some cases inner top.

At Janouras Custom Design we can design a dress around any Jacket Style chosen which again will save you the cost of the jacket, inner top and bottom piece.
